Honorary Vice President:

Dr. Aaaa Brrr,
National Medical College,
(Mobile) 0999999999
Email: aaaa_brrr@hotmail.com

Honorary Secretary:

Dr. Tttt Reeee,
Science Institute,
(Mobile) 0666666666
e-mail: Ttttreetee01@yahoo.com

Honorary Treasurer:

Dr. Keskes Faaa
NY forensic college
(Mobile) 0444444444
e-mail: keskes1983@yahoo.com

Organizing committee:

Dr. Hhhh Gggg
Dr. Jjjjj Kkkkkk
Dr. Llll Mmmm
Prof. Win Tyuo
Dr. Vio Khdio
Dr. Mohan Hesim
Dr. Deepo Jiu
Dr. Chatou Kdg

We are pleased to inform you that :

The CCC Association is holding a the 27th CCC conference on Image dataset in the north exhibition center in Paris, France on January 20-22, 2020.

The CCC conference is the world's largest technical conference focused on creating image datasets for forensic purposes.

CCC attracts students, professors, as well as researchers and engineers from different fields. This includes many graduate students nearing the end of their study seeking new opportunities. For companies interested in recruiting students for full-time employment or internships, CCC facilitates the exchange of information by organizing a Student Career Luncheon, where students could hear about various companies and employment opportunities, and students have the chance to network with company representatives.

The conference will commence with poster presentations and tutorials, followed by brief lectures by the conference organizing committee and world-class speakers.

Professionals and experts from all over the world will interact and share their views and experiences regarding image datasets in the panel discussions which follows. The audience will be encouraged to seek clarifications as well as pose important questions to the panelists and views will be sought on important issues arising from them.

Despite the short history of image datasets as a formal academic tool, it has made a number of fundamental contributions to science and society. In fact, along with forensics, it is a founding source of the current epoch of upcoming research called the Information driver of the Information Revolution

The goal of the conference is to be a premier venue for researchers and forensics practitioners to share new ideas, research results and development experiences in various domains. It is one of the best respected conferences in the area of forensic science.

The CCC2020 team looks forward to your views and expert opinion, for the organization, conduct and success of the conference.

Chairman Zudo
CCC2020 president
